

STATE OF NORTH CAROLINA  
DEPARTMENT OF TRANSPORTATION

ROY COOPER  
GOVERNOR

JAMES H. TROGDON, III  
SECRETARY

DATE: December 20, 2019

TO: Joint Legislative Transportation Oversight Committee

FROM: Johanna Reese  
Deputy Secretary for Intergovernmental Affairs

SUBJECT: NCDOT Transformative Project Report 2019

General Statute 136-189.11 requires DOT to report upon the release of a State Transportation Improvement Program when projects requested from the department in support of a time-critical job creation opportunity would be classified as transformative under the Job Development Investment Grant program. The 2020-2029 State Transportation Improvement Program (STIP) was adopted by the NCDOT Board of Transportation at its September 2019 meeting.

With this first report, we are including information on Highway Trust Fund money authorized prior to fiscal year 2019 as well as funds authorized in FY 2019. Legislation requires the report after the release of each STIP (typically biennially), however, the department will update it annually at the end of each fiscal year.

Projects funded are included in the attached table. General information, such as project location and description are included as well as industry specific data regarding jobs created and expected industry investment. The "Economic Development Tier" reflects the County Distress Ranking (tier) as defined by the Department of Commerce. The column titled "NCDOT Investment" reflects the original anticipated Highway Trust Fund investment projection for projects that have not begun or the authorized funds to date for projects underway. Projects with a status of "under construction" indicate that construction funds have been authorized. Work may or may not have begun on projects with this status, and a project may remain "under construction" until the project is closed out and final accounting has been completed.
